A history of light, glass, metal

1950. Italy. Venice. The town of Marcon and the island of Murano are just a few kilometres apart. Angelo Toso goes through those few kilometres almost every day from his workshop of artistic chandeliers to the shops of Murano glass masters to steal the secrets of their glass, hand blown in their furnaces.

It's a journey of pure passion, artistic affinities, where light meets matter, glass joins metal – brass, aluminium, steel – and tradition welcomes the future. The beginning of a great story: Studio Italia Design's story.

From Italy to the world over a constant evolution.

This is the main path of "made in Italy", chosen and followed by three generations, experimenting each year with new processing techniques, technologies, designs, precious materials and a series of exclusive collaborations to create unique and ingenious luminaires: by form, content, aesthetics and functionality.

It's the path of success, that from Venice leads Studio Italia Design to shift attention to foreign markets, more than 90 countries the world over: to become one of Italian lighting's most internationally developed brands.

Make room for creativity. In each and every form.

Every path has its limits and to overcome them you need eyes, sensibility, skills and different emotions to decipher an ever changing world. For this reason Studio Italia Design chooses to partner with famous designers, researchers and engineers from a variety of nationalities and backgrounds. A selected group of creative people that together with the firm reinterprets the objects as true interior pieces where the light source plays freely with volumes, reflections, transparencies, lines and all the shades of the materials. Infinite new collections joined together by a common thread of manufacturing excellence.

Lighting every need in modern living.

The path of innovation also leads to extreme customisation: an answer to the needs that come with new lifestyles thanks to inventive new products custom-made for a variety of different interiors and tailored solutions developed with the leaders in contemporary architecture.

Another new frontier travelled by Studio Italia Design on the path of experience: merging different materials, classicism and avant-garde, craftsmanship and technology. A look at the path where it all began and the excitement in the next step.

Una storia di luce, vetro, metallo.

1950. Italia. Venezia. Il paese di Marcon e l'isola di Murano distano pochi chilometri. E sono quelli che Angelo Toso percorre quasi ogni giorno dalla sua bottega artigiana di lampadari artistici ai laboratori dei maestri vetrai muranesi, per carpire tutti i segreti del vetro soffiato a bocca nelle fornaci.

È un viaggio di pura passione, affinità artistiche, dove la luce incontra la materia, il vetro si unisce al metallo - l'ottone, l'alluminio, l'acciaio - e la tradizione sorride al futuro. L'inizio di una grande storia: quella di Studio Italia Design.

Dall'Italia al mondo, evoluzione continua.

Questa è la strada maestra del made in Italy, quella che tre generazioni scelgono di seguire sperimentando ogni anno nuove tecniche di lavorazione, tecnologie, linee, materiali pregiati, e una serie di collaborazioni esclusive nella creazione di lampade uniche e innovative: per forma e contenuto, estetica e funzionalità.

È la via del successo, che da Venezia porta Studio Italia Design ad accendere l'interruttore sull'estero, in oltre 90 paesi in tutto il mondo: per diventare oggi uno dei brand italiani nel settore dell'illuminazione più evoluti a livello internazionale.

Spazio alla creatività. In tutte le sue forme.

Ogni strada ha i suoi confini e per superarli servono occhi, sensibilità, competenze ed emozioni diverse capaci di interpretare un mondo che cambia. Così Studio Italia Design ha deciso di farsi accompagnare da designer, ricercatori e progettisti famosi di varie nazionalità e background. Un pool di creativi che insieme al brand reinterpretano gli oggetti come veri e propri elementi di arredo, dove la sorgente luminosa è libera di giocare con i volumi, i riflessi, le trasparenze, le linee e tutte le sfumature della materia. Infinite nuove collezioni unite dall'eccellenza produttiva di sempre.

Per illuminare ogni esigenza dell'abitare.

Il percorso dell'innovazione passa anche attraverso la massima personalizzazione: la possibilità di rispondere ai nuovi stili di vita grazie a prodotti pensati ad hoc per i vari contesti dell'abitare e a soluzioni su misura studiate insieme ai protagonisti dell'architettura contemporanea.

Ancora una nuova frontiera che Studio Italia Design percorre nel solco della sua esperienza: integrando materiali eterogenei, classicismo e avanguardia, artigianato e tecnologia. Uno sguardo a quella strada dove tutto è iniziato e l'entusiasmo di raggiungere la prossima destinazione.

LINEE SOTTILI CHE VENGONO IMPREZIOSITE DAL DETTAGLIO CRISTALLO TRASPARENTE CHE QUANDO ILLUMINATO RISALTA COME LA RUGIADA IN PRIMAVERA. GRAZIE ALLA SUA MODULARITÀ CREA BELLISSIME COMPOSIZIONI CLUSTER.

THIN LINES HAVE A PRECIOUS TOUCH WITH A TRANSPARENT GLASS DETAIL THAT SHINES LIKE MORNING DEW IN THE SUNSHINE ON A SPRING MORNING. IT ALLOWS YOU TO CREATE BEAUTIFUL CLUSTERS THANKS TO IT'S MODULARITY.

LA PERFEZIONE NELLA SEMPLICITÀ DELLE COSE. L'ARMONIA E L'EQUILIBRIO DELLE LINEE SEMPLICI E LEGGEREZZA DEL POLICARBONATO VENGONO COMBINATE DA UNA SUPERFICIE PREZIOSA RENDENDOLA AFFASCINANTE SIA QUANDO È ILLUMINATA SIA QUANDO È SPENTA.

PERFECTION IS IN THE SIMPLICITY OF THINGS. THE HARMONY AND THE BALANCE OF SIMPLE LINES AND THE ETHEREAL LIGHTNESS OF POLYCARBONATE ARE COMBINED ON A PRECIOUS SURFACE THAT MAKE THE RANGE ENCHANTING BOTH WITH THE LIGHT ON AND OFF.

A close-up photograph of a highly reflective, abstract metallic sculpture. The sculpture consists of numerous curved, intersecting bands that create a complex, woven pattern of light and shadow. The metallic surface has a warm, golden-brown hue, suggesting it might be made of brass or copper. The background is dark, which makes the reflective surfaces stand out. The lighting is dramatic, highlighting the curves and the way light is trapped within the sculpture's intricate design.

CONDIZIONI GENERALI DI VENDITA

Art. 1 - Premessa - Salvo deroga risultante da apposito accordo scritto tra le parti, ogni compravendita di prodotti di Studio Italia Design S.r.l., P.IVA 02992370276 (di seguito: "SID") è regolata dalle seguenti Condizioni Generali di Vendita che costituiscono parte essenziale del contratto e che si intendono pertanto accettate dal Compratore ancorché dallo stesso non sottoscritte. Qualsiasi clausola unilateralmente apposta dal Compratore nei documenti da lui sottoscritti e/o nella sua corrispondenza, che sia contraria o comunque in aggiunta alle seguenti condizioni generali od a quelle speciali espressamente approvate per iscritto dal Venditore, si intende come non scritta ed è priva di ogni effetto.

Art. 2 - Perfezionamento della compravendita, quantitativi e prezzi - La compravendita si intende perfezionata con la conferma d'ordine scritta del Venditore anche a mezzo fax e/o posta elettronica o con l'inizio delle consegne per i casi in cui è stata richiesta l'immediata consegna della fornitura anche in presenza di modifiche intervenute e quindi accettate dal cliente. I prezzi concordati si intendono per prodotti consegnati franco stabilimento del Venditore e non comprendono prestazioni ed oneri accessori (quali IVA, imballo speciale, spese di trasporto, di installazione e/o montaggi e così via).

Art. 3 - Consegnna, trasferimento del rischio e trasporto - La merce viene consegnata al Compratore presso lo stabilimento del Venditore o in altro sito dallo stesso indicato per iscritto, ed il trasferimento del rischio avviene con la consegna della stessa al primo vettore o al Compratore nelle ipotesi di ritiro della merce da quest'ultimo direttamente eseguita. La merce viaggia sempre a rischio esclusivo del Compratore anche quando il vettore dovesse essere scelto ed incaricato dal Venditore, essendo quest'ultimo liberato da ogni responsabilità con la consegna dei prodotti al vettore, che ad ogni effetto si intende eseguita a mani dallo stesso Compratore. I termini di consegna pattuiti si intendono indicativi. In caso di ritardo nella consegna imputabile al Venditore per un periodo fino a 60 gg il Compratore non ha il diritto di rifiutare la fornitura, né di richiedere la risoluzione del contratto e/o il risarcimento di alcun danno. Se il ritardo nella consegna supera il termine di 60 gg il Compratore ha la facoltà di richiedere - con lettera raccomandata - l'annullamento dell'ordine e la restituzione degli anticipi eventualmente versati. Resta in ogni caso escluso qualsivoglia obbligo del Venditore di risarcimento danni diretti e/o indiretti di qualsiasi natura e per qualsiasi ragione, in dipendenza del ritardo ovvero della mancata esecuzione della fornitura.

Art. 4 - Riserva di proprietà - Il Compratore acquista la proprietà della merce solo con il pagamento integrale del prezzo fatturato delle forniture ma ne assume i rischi dal momento della consegna.

Art. 5 - Caratteristiche dei prodotti e condizioni di utilizzo - Salvo diverso ed espresso accordo scritto tra le parti, i parametri funzionali dei prodotti sono quelli espressi comunicati o comunque risultanti nei disegni e specifiche tecniche del Venditore se esistenti o su quanto indicato sul sito web www.studioitaliadesign.com relativamente ai prodotti. I livelli di qualità dei prodotti forniti sono quelli standard del Venditore, evidenziati nelle relative specifiche o su quanto indicato e desumibile sul sito web del Venditore. E' onere del Compratore individuare e comunicare al Venditore le condizioni di utilizzo dei prodotti prima della relativa definizione tecnica. In mancanza di indicazioni da parte del Compratore il Venditore considera condizioni di utilizzo quelle di prassi dallo stesso considerate o esplicite nei propri disegni e documentazione tecnica.

Art. 6 - Garanzie - I prodotti forniti sono coperti da garanzia per difetti di materiale e/o fabbricazione per un periodo di 24 mesi dalla consegna se il Compratore risulta essere una persona fisica, diversamente il periodo di garanzia sarà di 12 mesi dalla consegna. Il Venditore sostituisce i prodotti resi in detto periodo di garanzia e riconosciuti difettosi per vizi d'origine ovvero in alternativa ed a sua scelta accredita al Compratore una somma pari al prezzo già fatturato dei prodotti stessi, restando espressamente escluso e rinunciato qualsiasi diverso diritto o pretesa del Compratore anche a titolo di risarcimento danni diretti e/o indiretti o di rimborso di costi dallo stesso sostenuti (quali costo di riprese, di assistenza tecnica, di richiamo, ecc.). Eventuali difettosità o non conformità dei prodotti devono essere segnalate dal Compratore per iscritto al Venditore - a pena di decadenza - entro e non oltre 8 gg dalla data di ricevimento della merce; eventuali difetti occulti devono essere segnalati dal Compratore per iscritto al Venditore - sempre a pena di decadenza - entro 8 gg dalla relativa scoperta. Resta inteso che SID non sarà responsabile per alcun vizio ancorché occulto, comunicato per iscritto, oltre 24 mesi dalla consegna della merce. La garanzia non opera ove i difetti rilevati siano imputabili a negligenza del Compratore e/o ad impiego dei prodotti non conforme con le informazioni e le spiegazioni in ogni caso fornite dal Venditore, alle prescrizioni tecniche, ad errata progettazione, applicazione, montaggio o fabbricazione delle strutture ove sono installati, ad errata manutenzione operata da personale non autorizzato, a pulizia impropria in quanto effettuata con modalità o materiali non idonei, ad errato magazzinaggio, movimentazione e trasporto, ad uso improprio od incauto, anche in caso di impianto elettrico e portata dello stesso non idonea, ovvero a circostanze che comunque non possono ricollegarsi a difettosità di produzione da parte del Venditore. Ogni singolo prodotto SID è conforme alla marcatura richiesta dalla Comunità Europea con la direttiva 93/68 (ampliamento della direttiva 73/23) per confermare con una marcatura riconosciuta in tutta Europa, che le lampade sono state sottoposte alle prove di sicurezza elettrica richieste dalle norme Europee EN-60598-1-2 II ed. + CEI EN 60598-1 IV ed. corrispondenti norme italiane CEI 34-21 + CEI 34-23, norme per la sicurezza elettrica a cui fanno riferimento tutti gli istituti, compreso l'IMQ. I prodotti indicati con il marchio UL e/o ETL sono conformi alla normativa UL 1598/CAN/USA C22.2 No.250.0 o UL 153.

Art. 7 - Obblighi del Compratore - Il Compratore è tenuto a prendere immediatamente in consegna i prodotti affidati dal Venditore al vettore, ovvero - se diversamente concordato - a puntualmente ritirarli presso lo stabilimento del Venditore alla data di comunicazione di merce pronta che potrà avvenire con ogni mezzo da parte del Venditore. Ove il Compratore ritardi il ritiro dei prodotti per un periodo superiore a 10 gg, oltre al pagamento del prezzo deve corrispondere al Venditore un adeguato compenso pari al 2% al giorno dell'importo fatturato per il magazzinaggio degli stessi. Il Compratore deve effettuare i pagamenti normalmente, con le modalità e nei termini precisati in fattura. Sui ritardati pagamenti decorreranno, di pieno diritto e senza necessità di costituzione in mora, gli interessi di cui al D.lgs. n. 231/2002. In caso di ritardo dei pagamenti il Venditore ha diritto a sospendere immediatamente ogni fornitura, anche se dipendente da altri contratti con lo stesso Compratore. Il mancato pagamento nei termini pattuiti comporta in ogni caso la decadenza del Compratore dal beneficio del termine.

Art. 8 - Forza maggiore - Qualora il Venditore sia impossibilitato a rispettare il contratto per cause di forza maggiore o comunque indipendenti dalla sua volontà, i termini previsti per l'esecuzione della fornitura sono automaticamente prorogati per un periodo equivalente al perdurare degli effetti di tali cause. Qualora la causa impedisca continuo per più di 6 mesi entrambe le parti possono chiedere la risoluzione del contratto ed in tal caso il Venditore restituisc al Compratore gli anticipi eventualmente ricevuti, con esclusione di ogni e qualsiasi onere ulteriore a suo carico.

Art. 9 - Contratto - In caso di sottoscrizione di apposito contratto lo stesso con i suoi allegati contiene e riassume le obbligazioni validamente assunte dalle parti e per esse vincolanti. L'adempimento delle parti sarà oggetto di valutazione dell'effettiva esecuzione dei compiti e doveri contrattuali, da effettuarsi in buona fede, onestà e con equità. Le presenti Condizioni Generali di Vendita si applicheranno al contratto salvo deroga risultante da atto scritto o in esso contratto esplicitamente prevista.

Art. 10 - Controversie - Qualora dovesse verificarsi una qualsivoglia controversia avente ad oggetto la formazione, validità, interpretazione, esecuzione, modifica e risoluzione del contratto o delle presenti Condizioni Generali di Vendita, questa sarà risolta secondo i principi e le regole indicate nell'articolo 11 che segue.

Art. 11 - Foro competente e legge applicabile - Foro esclusivamente competente sarà quello di Venezia con esplicita esclusione di ogni altro foro alternativamente competente, e la legge applicabile quella italiana.

Art. 12 - Sito Web - Le presenti Condizioni Generali di Vendita, sono quelle risultanti sul sito web www.studioitaliadesign.com e sono stampabili e riproducibili su supporto cartaceo. SID si impegna ad aggiornare il sito web www.studioitaliadesign.com mediante la pubblicazione sullo stesso della versione di Condizioni Generali di Vendita di volta in volta modificata.

GENERAL CONDITIONS OF SALE

Any clause unilaterally added by the Buyer in the documentation signed by it and/or in its correspondence, being against or in any case in addition to the general conditions or to those specific expressly approved in writing by the Seller, shall be deemed as not written and shall be of no effect.

Art. 2 - Completion of the sale, quantities and prices - The sale is deemed to be completed once the Seller gives the written order confirmation also by fax and/or email or when deliveries are commenced in cases where the immediate delivery of the supply is requested, also in consideration of changes occurred and then accepted by the customer. The prices agreed are understood for products delivered ex works of the Seller and do not include services and accessory charges (such as VAT, special packaging, transport and installation costs, and/or assemblies and so on).

The delivery terms agreed are to be understood as indicative. If the Seller is responsible for delay of delivery for a period of up to 60 days, the Buyer is not entitled either to refuse the supply or to request the termination of the agreement and/or the compensation for any damages. If the delay in delivery exceeds 60 days, the Buyer is entitled to request – by registered letter- the cancellation of the order and the reimbursement of the advances if paid. In any event, the Seller shall not be liable for and/or direct and indirect damages of any nature and for any reason due to the delay or the failure to carry out the supply.

Art. 4 - Reservation of title - The Buyer acquires property rights over the goods with the full payment of the price invoiced of the supplies but it takes the risks thereof as of the delivery.

Art. 5 - Products features and conditions of use - Unless otherwise expressly agreed in writing by the parties, the conditions for using of the products are those communicated or in any case resulting from the drawings and technical specifications of the Seller, if any, or as described in the website www.studioitaliadesign.com in relation to products. The quality levels of products are the standard quality levels of the Sellers, indicated in the relevant specifications as described on the Seller's website. It is always the Buyer's responsibility to identify and notify the Seller of the conditions of use of products before technically defining them. Failing any particular instructions from the Buyer, the Seller considers as usual conditions of use those it considered or described in its designs and technical documentation.

Art. 6 - Warranties - The products delivered are covered by a warranty for defects in material and manufacture for a period of 24 months as of the delivery if the Buyer is a natural person, otherwise the warranty period will be of 12 months as of the delivery. The Seller shall replace the products delivered in this warranty period being faulty due to factory defects or in alternative, at its discretion, pay the Buyer an amount equal to the price already invoiced of the said products, being expressly excluded and waived any other right or claim by the Buyer also as compensation for direct and/or indirect damages or cost repayment borne by it (such as recovery, technical assistance, recalling costs, etc.). Any defectiveness or non-compliance of products shall be reported by the Buyer by writing to the Seller – in order to be valid – within 8 days from receipt of goods; any hidden defects shall be reported by the Buyer by writing to the Seller – always in order to be valid – within 8 days as of the relevant discovery. It being understood that SID will not be responsible for any defect even though hidden, being notified in writing, after 24 months of the delivery of goods. The warranty does not apply where the defects identified are due to the Buyer's negligence and/or to the use of products being not compliant with the information and explanations in any case given by the Seller, technical provisions, to incorrect design, application, assembly or manufacture of the facilities in which they are installed, to incorrect maintenance carried out by unauthorized personnel, to improper cleaning since it is made with materials and manners being not suitable, to incorrect storage, handling and transport, to improper or imprudent use, also in the event of electrical system and its capacity being not suitable, or to circumstances that in any case cannot be related to the production defectiveness by the Seller. Every single product of SID corresponds to the mark laid down by the European Community with Directive 93/68 (extension of Directive 73/23) to confirm, with a mark recognized all over Europe, that the lights have undergone the electrical safety test required by European standards EN-60598-1-2 II ed. + CEI EN 60598-1 IV ed. corresponding to Italian standards CEI 34-21 + CEI 34-23, electrical safety standards referred to by all institutions, including the IMQ. The products indicated with the logo UL and/or ETL corresponds to the standards UL 1598/CAN/USA C22.2 No.250.0 o UL 153.

Art. 7 - Buyer's Obligations - The Buyer is required to immediately take delivery of the goods given by the Seller to the carrier, or – where otherwise agreed – to timely collect them at the Seller's plant on the date on which the Seller communicates, by any means, that the goods are ready. Where the Buyer delays the collection of the production for a period exceeding 10 days, in addition to the payment of price it shall pay the Seller a proper compensation equal to 2% per day of the price invoiced for storing such products. The Buyer shall carry out the payments normally, in accordance with the terms and conditions specified in the invoice. For late payments it will be accrued by default without need of further notification interest under Legislative Decree no. 231/2002. In the event of payment delays, the Seller is entitled to immediately suspend any supply, even though it has concluded other agreements with the same Buyer. The failure to pay within the terms agreed will cause in any event the loss of favourable terms for the Buyer.

Art. 8 - Force majeure - If the Seller is unable to comply with the agreement due to force majeure or beyond its control events, the deadlines set for the supply are automatically extended for a period in which these effects continue. Where the obstacle to comply with the agreement is longer than 6 months, both parties may request the termination of the agreement and, in such event, the Seller repay the Buyer the advances received, if any, releasing itself from any additional obligation on it.

Art. 9 - Agreement - In the event of execution of a specific agreement signed by the parties, the said agreement together with its Annexes provides for and summarizes the obligations validly undertaken by the parties and being binding for them. The fulfilment by the parties will be subject to effective evaluation of the actual performance of the contractual tasks and duties to be carried out in good faith, with honesty and fairness. These General Conditions of Sale shall apply to the agreement, unless otherwise provided in writing by the parties or expressly provided in the said agreement.

Art. 10 - Disputes - Any dispute which may arise concerning the signing, validity, interpretation, performance, amendment and termination of the agreement or of these General Conditions of Sale will be settled according to principles and rule set forth in Article 11 below.
