

Scroll User Help for Confluence

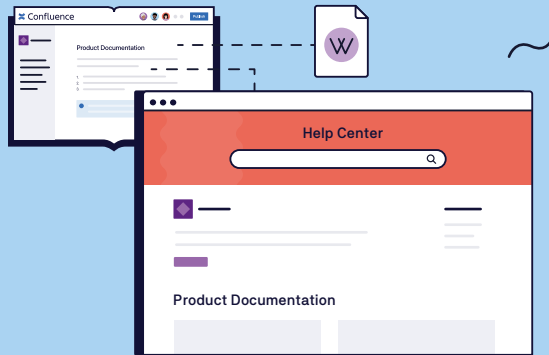

**Help
Your**

**Know
How**

Help centers, knowledge bases,
and documentation sites,
right from Confluence.

Provide Superior User Help

Deliver Branded Help Experiences

Publish help centers and documentation in multiple formats and tailor the experience to your liking with a custom domain, layouts, logos, and more.

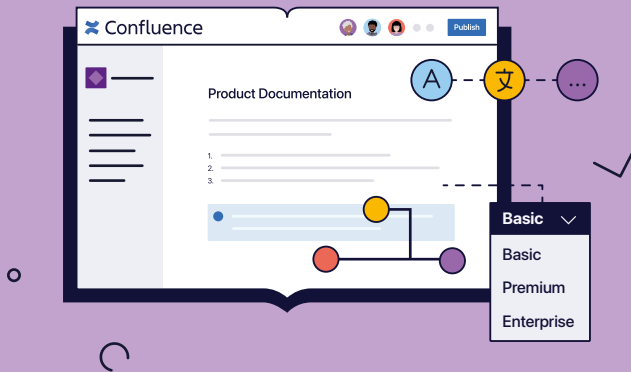

Publish PDF and Word Documents

Turn your content into beautiful PDF and Word documents with rich output functionality and full control over styling.

No Coding Necessary

Use the pre-built theme or the WYSIWYG template editors to customize everything: headers, footers, colors, navigation, and more.

Manage Help Content With Ease

Add Version Control to Your Documentation

Save, control, and compare versions of your documentation over time.

Create, Manage, and Publish Variants and Translations

Manage conditional content and deliver multilingual documentation – all from a single source.

Check Content Quality and Enforce Style Standards

Create content rules to check broken links, formatting, spelling, inclusive language, and more.

User Help

Deliver a rich enablement experience for your customers, with custom branding, domains, layouts, versioned and multi-lingual content, and more.

- Help centers
- Knowledge bases
- Documentation sites
- In-product help
- Product portals
- Release notes

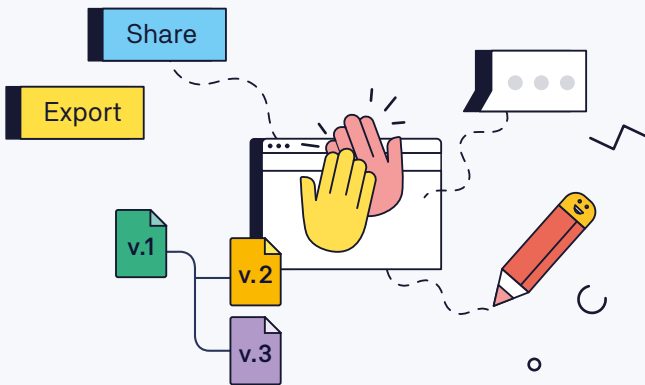

See Examples

Get inspired!

Team Enablement

Create and centralize essential documents that can be customized, tracked, versioned, and shared with anyone both inside and outside the organization.

- Handbooks
- Training guides
- Process documentation
- Compliance documentation
- Onboarding documents
- Contracts, quotes, RFPs, and RFQs
