# madcap® IXIACCMS

Streamline Your Technical Documentation Process with Our Enterprise-Class DITA CCMS

MadCap IXIA CCMS, the leading cloud-enabled component content management system, allows your documentation team to easily create, manage and publish personalized technical content.

INCREASE YOUR TEAM'S PRODUCTIVITY AND ELEVATE CUSTOMER EXPERIENCE BY DELIVERING HIGH-QUALITY PRODUCT DOCUMENTATION.

Committed to DITA

We are proud to offer a CCMS solution that is 100% compliant to DITA, the de facto standard for structured content authoring and base for intelligent content.

Cross-Functional Collaboration

Authors, reviewers, subject matter experts and localization managers can all collaborate and contribute inside an intuitive and centralized work environment.

Enterprise-Class DITA CCMS

Our cloud-enabled solution is designed to manage large-scale content operations. From millions of documents to hundreds of globally dispersed users, we've got you covered.

Elevate Customer Experience

Deliver personalized, relevant and dynamic content in any format that is readily accessible from anywhere via websites, onboard systems and any other intelligent application.

ADVANCED CCMS FEATURES YOU CAN COUNT ON.

Advanced Authoring Tool

Help your authors be more efficient by allowing them to create and manage content with a powerful tool designed just for them.

Easily Onboard Your SMEs and Reviewers

Intuitive interface allows non-DITA experts, subject matter experts and reviewers to easily provide feedback allowing you to reduce your overall documentation cycle time.

Powerful Branching and Merging

Our robust Dynamic Release Management feature supports multiple branch and merge structures including parallel development, continuous delivery, waterfall and others.

Flexible Workflow and Automation

Adapts to your unique business operations and helps automate your processes with a workflow that is fully configurable.

Excellent Search & Filtering

Maximize content reuse by offering fast and accurate searching capabilities. Based on full-text or any metadata, you name it, search is a breeze.

Smart Localization Saves Time and Money

Reuses already translated content, supports collaborative reviews and imports/exports DITA to and from any Translation Management System.

Omni-Channel Publishing

Publish content to any output type including PDFs and personalized web delivery – all while reducing publishing time and automating processes.

An Open CCMS

Organizations can rely on our REST API to push and pull information to and from IXIA CCMS to ensure content is shared and connected to your other systems.

Adopted by industry leaders just like you.
