TIM
Review Service

**Smart content quality assurance**

tim

The editorial system for
digital technical documentation

Content quality assurance made even easier

✓ Global, web-based collaboration via one process

✓ Keep an overview thanks to clear dashboards

✓ Quick feedback through comment function for the reviewer

✓ Secure exchange of documents thanks to standardized processes via the iiRDS exchange format

✓ Receive important information in the review process via mail

Easier operation and flexibility

✓ Flexibility in all directions: Close reviews ahead of time

✓ Check the layout of PDF publications

✓ Edit subsequent changes to existing reviews easily and quickly

✓ Capture comments at the word level and comment on received comments without losing track of them

More advantages

✓ The smart operation and intuitive user interfaces provide a clear overview of the review process and significantly facilitate collaborative work.

✓ With the Review Service, you ensure the quality of the content of your technical documentation and save time through simplified collaboration.

✓ Comprehensive quality assurance increases customer satisfaction and reduces the risk of critical liability issues.

✓ No TIM license or additional installation is required to make full use of the review service.
