

# LANGUAGE TECHNOLOGIES

Drowning in large translation volumes and tight deadlines? Overwhelmed with multilingual content? Struggle to reach clients and employees speaking different languages? **Then look no further, language technologies can help you!**

## MACHINE TRANSLATION

Immediate translations of any content, volume, format and language. Optimize your translation workflow with instant, high quality translations!

## VIRTUAL ASSISTANTS

Provide 24/7 customer service in any language, format and voice. Virtual assistants can be implemented in any platform or social media channel.

## SPEECH TECHNOLOGIES

Speech-to-text and text-to-speech turn written speech into text and vice versa. This can help to save time on everyday tasks as well as ensure information accessibility for visually or hearing impaired people.

# WHY TILDE?

Tilde Machine Translation is built on years of research and innovation and is powered by the latest AI-driven technologies. Our systems are created, tested and recommended by linguists and language technology gurus worldwide, becoming a reliable and effective solution to automate and optimize the translation process and enable communication beyond any language.

## MODERN TRANSLATION

Award-winning neural machine translation technologies provide secure automated translations anytime, anywhere, and for any purpose. (MS Word, PPT, Excel, PDF, etc.)

## EXPERIENCE AND EXPERTISE

Proven track record of helping companies all over the world to increase translation productivity with automated translation technologies.

## BUSINESS AUTOMATION

Our technologies will ensure that your business runs smoothly and efficiently by adapting multilingualism into its internal and external processes.

## DATA LIBRARY

Large data archive in multiple languages in various domains

## ALL THE NECESSARY TOOLS

Choose among 50+ ready-to-use engines, custom MT for specific terminology and domain, or adaptive machine translation

## DATA SECURITY

Compete security and protection of proprietary data and intellectual property

## TRUSTED BY

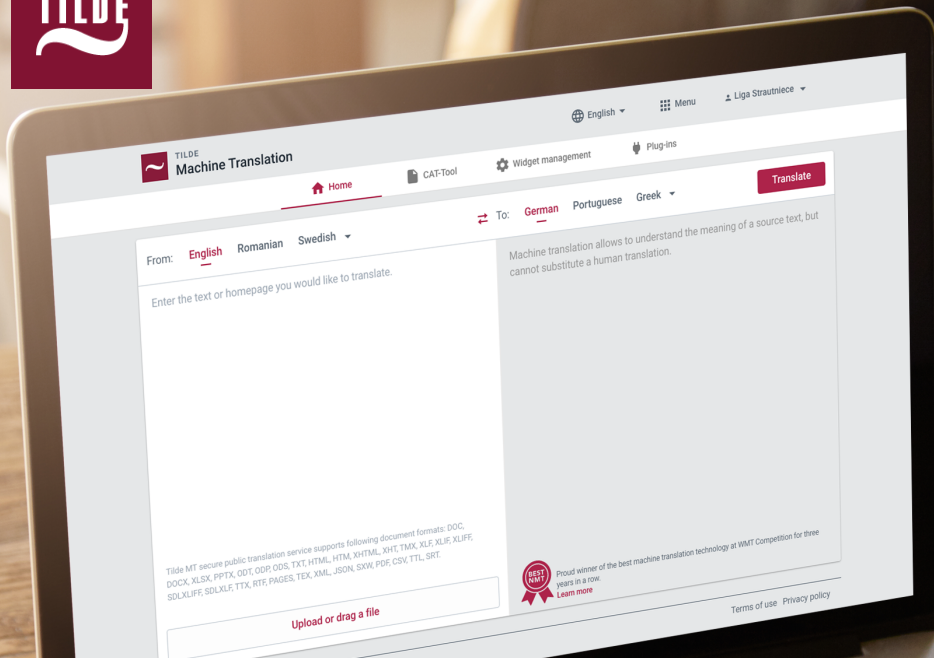

“

The high-quality translations, and industry expertise, as well as the support and flexibility of Tilde during the implementation process made them an outstanding machine translation provider.

”

Viesturs Šterns, Finance Director, Rīgas Vilņi

# State-of-the-art machine translation technology for instant, fluent and secure translations

Our research and innovation team has over 20 years of experience in language tech development. It also collaborates with partners around the world in projects pushing the limits of MT to create solutions that make your work easier and more effective.

## TRANSLATION PLATFORM

Translate text, documents and websites in a user-friendly translation platform. Equipped with many powerful features to streamline your translation process.

## WEBSITE TRANSLATOR

No coding, manual translating, or duplicated pages – let the machine translation technology do the job for you!

## OUTLOOK PLUGIN

Send and receive translated emails without leaving the app. Plug-in is available for MS Outlook 365 and 2016-2019 desktop versions.
