Smart Connectivity

Automate your content localization with an XTM Connector

✓ Create multilingual marketing

✓ Fast track your digital transformation
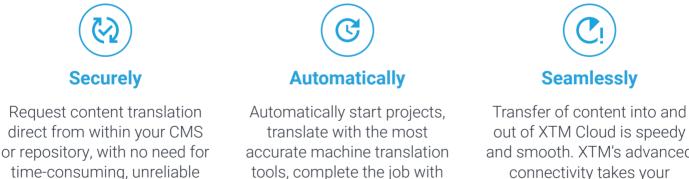

✓ Speak to the world with accurate content

XTM Cloud

Take translation management automation to the next level

XTM Cloud is the heart of a language technology ecosystem, uniting best-in-class providers to deliver seamless multilingual communication of the the highest quality.

Securely

Request content translation direct from within your CMS or repository, with no need for time-consuming, unreliable transfer of files or e-mails. It's fast, focused and secure.

Automatically

Automatically start projects, translate with the most accurate machine translation tools, complete the job with human editing and swiftly receive the finished product.

Seamlessly

Transfer of content into and out of XTM Cloud is speedy and smooth. XTM's advanced connectivity takes your content from the expressway to the freeway.
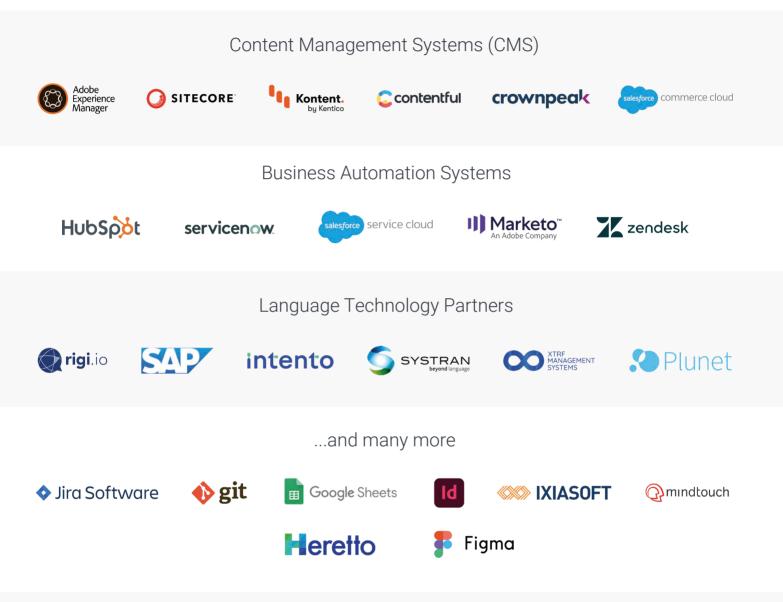

Vendor inclusivity | Why shackle yourself to a translation technology provider that takes away your ability to choose your preferred vendors? XTM Cloud is vendor-inclusive, giving you the choice of the swiftest, most specialized and cost-effective service provider for any project.

Plug, play and speak to the world

XTM Cloud offers you cutting edge connectors, harmonized to deliver speed-to-market and to ensure your globalization strategy is an ongoing success.
